ABOUT TELTEK...

Teltek designs, manufactures and sells dynamic scales and peripheral equipment. The scales have integrated data systems and weigh, sort and handle products moving along production line conveyor belts. The integrated software registers the recorded weights and prepares various sets of statistics. Our weighing systems are noted for their excellent communication with other equipment in the production facilities where they are used. Teltek's weighing systems are used primarily in light industries such as the foodstuff and pharmaceutical industries. The company has a wide, international customer base. Sales are via a network of distributors.

Teltek C-platform

Teltek C-platform makes the base of the checkweighers in Teltek C-series. Hardware as well as software is developed by Teltek and give our checkweighers very high performance in weighing.

Teltek C-platform can be combined with many different applications to be able to fit in a large amount of different environments.

Combine Teltek C-platform with either the C20, C60 or C80 interface.

15" Touch Screen

Advanced statistics

European MID Approval

Up to 500 products a minute

Flexible user interface with multifunction

Up to four weighing systems per user control unit

High precision, high speed.

PC based Windows™ operating system with a large 15" multifunction touch screen. Teltek C80 is a PC based Windows™ in line checkweigher featuring a high specification 15" touch screen display for ease of use and maximum operator flexibility.

Designed and manufactured to the highest engineering standard with inherent reliability and longevity for use in tough, hostile environments.

The Teltek designed precision engineered C80 weigh platform guarantees weight stability, accuracy and repeatability.

Available fabricated in stainless steel, IP65 with conveyors driven by virtually maintenance free brushless DC motors.

The C80 offers a range of belt sizes and reject devices to suit customer specific needs including Air Blast, Push-er, Single or Double Flipper/Divert Arm and Drop Flap.

The Teltek C80 is feature packed with wide ranging Networking, Feedback and Communications capabilities, giving management and operators total control over their checkweighing.

Up to four parallel weighing systems can be controlled by one display and software programme.

The Teltek weighing mechanism is easy to clean with quick release tool free belt release and incorporates an open designed stainless steel corrosion free load cell guaranteeing longevity and trouble free weighing.

Save production reports in Microsoft Excel™ format or as an Adobe PDF™. The reports can be saved locally or on any computer on the intranet.

Teltek C80 is approved in accordance to European MID.
