MAXI

The first TIJ printer in the world featuring Collins 1" (25mm) disposable cartridges

The new printer **Famjet Maxi** has been designed to print Hi-resolution informations (up to 750 dpi) on porous, semi-porous and not porous materials.

The new single **1" (25mm) Cartridge design** provides perfect 1" (25mm) alphanumeric characters, logos and Barcodes.

The use of a single 1" (25mm) print engine avoids complicated cartridges alignments that always provide poor printing quality in real applications.

With the new Famjet Maxi-**Dual** printhead you can print up to 2" **(50mm)** messages.

Printing height:
up to 50mm
with the Dual pen stally

Display :
Touch Screen 2.8"

Resolution:
Up to 750 dpi
