Baguette & Roll Range

Our innovative flat top baguette and roll packs offer great functionality and superb presentation of fresh products. The contemporary design ensures maximum and efficient use of shelf space with an integrated stacking feature on the hinged lid.

Made from clear recycled PET (rPET), a material consisting mostly of post consumer recycle, the packs provide high clarity and excellent product protection. Subtle ribbing around the base helps increase strength, while clear lid panels allow easy labelling and maximum product visibility.

The baguette packs are available in small, medium and large lengths, while the roll packs have the option of either a shallow or deep lid. The range is ideal for showcasing filled baguettes, rolls, bagels, croissants, pastries and many other fresh chilled and ambient products.

Code	Description	Dimensions (mm)
85311	Small Baguette	200 x 95 x 75
85090	Medium Baguette	255 x 95 x 75
