

MINI CLIP

SM A - Aluminium Seal

SM P - Plastic Seal

MANUAL CLIPPING MACHINES

Machines designed for small, medium production units and making use of closing materials such as plastic or aluminium clip band.

All the models are available with pneumatic printers to apply the expiry date and the lot number on the seal: mechanical engraving device, cold ink or electronic inkjet printers.

APPLICATION FIELDS

BAKED PRODUCTS
PASTRY
PASTA
PRALINERY - CONFECTIONERY

CARACTERISTICS AND ADVANTAGES

SIMPLE to use | FAST reel change | LONG reel life
 MINIMAL use of energy | LOW COST of closing material
 SOLID mechanical structure | STRONG sealing system

COLD INK

Technical description

- Pneumatic operation • Air consumption ca. 50 liters per minute 6 bars
- Overall dimensions (L x W x H): 800 x 680 x 1060 mm • Weight 35 Kg

Aluminium reel
 Life of reel ca. 2.800 seals

Plastic clip band reel
 Life of reel ca. 15.000 seals

Models available

MINI SM 35 A 5 / MINI SM 40 A 7

Seal thickness		0,6 mm
Mechanical speed		30 cycle/minute
MINI SM 35 A 5	Seal length	35 mm
	Seal width	5 mm
MINI SM 40 A 7	Seal length	40 mm
	Seal width	7 mm

STAINLESS STEEL structure available on request

Models available

MINI SM 35 P / MINI SM 40 P / MINI SM 50 P

Seal width	8 mm	
Metallic wires thickness inside of seal	0,7 - 0,8 mm	
Mechanical speed	30 cycle/minute	
MINI SM 35 P	Seal length	35 mm
MINI SM 40 P	Seal length	40 mm
MINI SM 50 P	Seal length	50 mm
