# About us

Established in 2003, Detectamet manufactures the largest range of detectable products for the food, beverage and pharmaceutical industries.

Whatever your detectable needs, look no further than our wide range of tried and tested products, fully compliant with the stringent regulations of the food, beverage and pharmaceutical industries. Your reputation is safe in our hands and you can have peace of mind, knowing that you've taken the best steps towards foreign body prevention.

## How can we be so confident?

Simply because over the last seventeen years we've collected awards for our innovative products, helping businesses like yours avoid unnecessary foreign body contamination. We also hold a wide range of patents, so you can be sure you're buying the very best in detectable equipment.

## With the Detectamet range you get:

- Peace of mind
- Protected reputation
- Hazard prevention
- Equipment protection
- A reputable, friendly partner

# Accreditations

At Detectamet we take our business very seriously, which is why we are ISO accredited in 9001: Quality Management, 14001: Environmental Management and 45001: Occupational Health and Safety

**Awards** - Over the years, we've collected awards for our innovative products

Queens Awards for Enterprise 2015 in International Trade

Society of Food Hygiene and Technology (SOFHT)  
Company of the Year 2013 with less than 100 employees

Society of Food Hygiene and Technology (SOFHT)  
Company of the Year 2015 with less than 100 employees

Chamber Bridlington & Central Coast Business Awards

Judges Award for Business Innovation 2015

## Product Innovation

Not content to stand still, our product development team is constantly innovating to bring new detectable products to help you avoid foreign body contamination.

In our line of work it's imperative our products contribute to making food production safer. This is why we work in partnership with BRCS through their Partner Connection Programme.

## Global Network

We are a truly international company – with manufacturing and distribution centres in the UK, USA and Canada - working with numerous distributors worldwide. Please contact us for details of your local distributor.

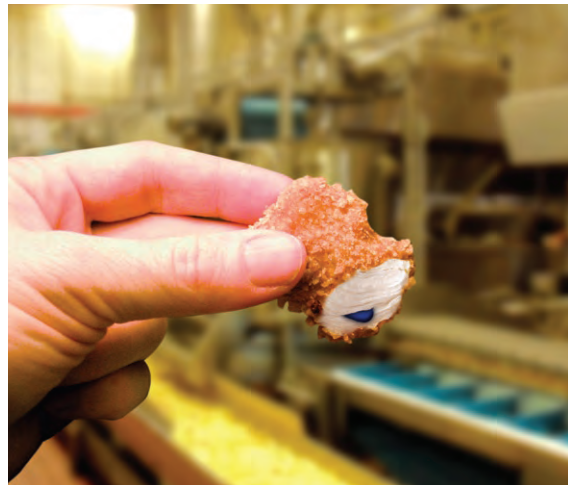

# Why do you need detectable products?

Food, drink, and pharmaceutical industries need to prevent/reduce the risk of foreign body contamination.

Physical contaminants can damage equipment and cause injury. If they reach the consumer you will be faced with an expensive recall, which could seriously harm your reputation.

The safest way to eliminate and protect against this risk is to use metal detectable and X-Ray visible products in all areas of your product preparation areas.

## BRCGS - Standard in food safety

Food safety is vital to the food manufacturing industry, and the BRCGS Standard allows you to demonstrate your commitment, which in turn enhances your reputation and brand.

BRCGS is a globally recognised certification programme trusted by customers worldwide. Certification to a BRCGS Standard guarantees the standardisation of quality, safety and operational criteria and ensures that manufacturers fulfil their legal obligations and provide protection for your customers.

By using our products you're contributing to your food safety commitment by avoiding foreign body contamination.

## What do you get from Detectamet?

Detectamet's product range offers you the best in detectability, made from a unique, patented polymer that contains the highest level of detectable additive, without compromising on durability, and manufactured from EU & FDA (Food and Drug Administration) food contact approved materials.

- Unique polymer - contains highest levels of detectable additive on the market
- A large selection of products comply with EU and FDA food contact regulations
- Durable products - minimise risk of breaking and entering the food chain
- Largest range of detectable products on the market
- Colours - prevent cross contamination with nine strong detectable colours available in many products. Blue, black, red, green, yellow, white, purple, orange and pink
- Bespoke products available on request
- Branding/sequential numbering with in-house laser engraver/pad printer
- Free samples available

# Own Branding and Sequential Numbering

Using our in-house Pad printer we can offer a cost effective solution for branding your detectable products at an economical price. It offers superior quality one and two colour print on 3D irregular, curved and textured objects, making it perfect for our products.

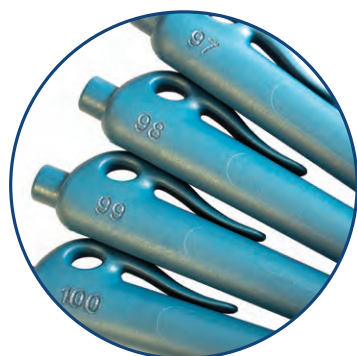

We also offer an in-house laser service for branding and serialisation.

Using detectable equipment is an essential step towards preventing foreign body contamination. However, mistakes do happen, and equipment can go missing during a shift.

**Sequential numbering** gives you complete traceability and is particularly important if production presents higher risks, making it even more important to eliminate any type of contamination.

Our **laser engraving** service adds sequential numbers onto your products. This allows you to record products issued to staff at the start of a shift, check against that record at the end of the shift and if a missing tool is discovered, investigate its whereabouts immediately.

Where pad printing and laser engraving are not appropriate - due to the product - we can print your logos at point of manufacture, e.g. keyhole tags, test pieces. Ask a member of our team for advice.

## Detectamet work in partnership with BRCGS through the Partner Connection Programme

Our pens are made from shatter resistant FDA/EU Food grade materials which contains a detectable additive making them detectable by foreign body detection equipment, and are designed without small parts that can break off and enter the food chain.

From 2020 all standard/fine tip ink will be manufactured using our fully detectable pen refills.

### Ink Types

Detectamet's pens and refills come in four different types of ink and **it's important you choose the right ink for the correct working environment**. Standard inks are not suitable for cold and wet areas.

Ink type	Which environment is it suitable for?	Available colours	Notes
<b>Standard</b>	Ambient conditions 0°C up to 30°C (32 to 86°F). Writing line width 1mm (39.4 mils)		
<b>Pressurised Cryo</b>	Extreme colds -15°C up to 60°C (5 to 140°F) E.g. freezers/cold stores; wet areas; powdery surfaces; greasy surfaces, underwater, writes upside down. Writing line width 1.2mm (47.2 mils) Unlimited shelf life		<i>Due to the pressurised nature which maintains a consistent ink flow, it's important to clean the nib frequently to limit the build-up of ink</i>
<b>Fine tip</b>	Ambient conditions. Writing line width 0.7mm (27.6 mils)		
<b>Gel</b>	Ambient conditions -5°C up to 30°C (23 to 86°F); cold environments; dusty environments. Writing line width 0.7mm (27.6 mils)		

### Safety chains and split ring attachments

Retractable markers are unique and can easily get lost, so why not have safety chains and split ring attachments fitted to your pens?

To order use product codes:

Split Ring	153-T203
Safety Chain	155-P44-S083-A93

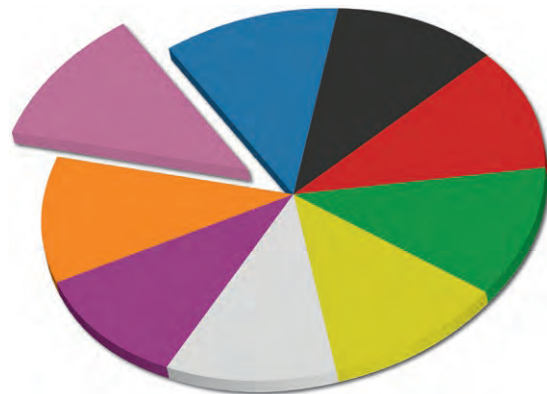

# Colour Coding mitigates the risk of cross contamination

At Detectamet we recognise the importance of avoiding cross contamination, which is why many of our products are available in nine different colours.

This allows you to safely identify different ingredient/product zones and helps workers comply with material handling and hygienic cleaning procedures, so you can maintain stringent food safety standards.

If you can't find what you're looking for, please talk to a sales representative for assistance.

# Pen Refills

## Fully Detectable Pen Refills

Our patent pending pen refills were the first on the market to be fully detectable, including the end cap.

**We sell  
refills!**

### Features & Options

## Retractable Detectable Pens

FR: Stylo rétractable robuste ES: Bolígrafo retráctil de alta resistencia DE: Extrastarker Druckkugelschreiber

These are our best-selling retractable metal detectable and X-Ray visible pens, designed to be extremely durable and shatter proof – minimising any risk of foreign body contamination.

Made from Detectamet's unique detectable polymer, the rugged construction makes it resilient, so it won't break under stress, whilst the ergonomic grip allows a firm hold in a wide range of environments.

# Retractable Detectable Pens

FR: Stylo rétractable éléphant ES: Bolígrafo retráctil Elefant DE: Druckkugelschreiber „Elefant“

**Part of Detectamet's range of detectable pens, Elephant retractable pens are made in the UK using our unique detectable polymer.**

Each component is metal detectable and X-Ray visible and is specifically designed for the food safety industry to minimise risk of foreign body contamination from parts breaking off and entering the food chain.

As with all Detectamet's products, it's shatter proof and incredibly durable, and to minimise your environmental footprint it can be filled with a fully detectable refill to extend its life.

# Metal Detectable & X-Ray Visible Detectable Plasters/ Bandages

**FR:** Pansements détectables

**ES:** Tiritas detectables

**DE:** Metalldetektierbare Heftpflaster

Hygiene is of paramount importance in the food processing industry.

Our innovative range of detectable plasters are both blue in colour and offer a dual detection system, making them detectable by both metal and X-Ray inspection systems – required under BRCGS Issue 8. They are also fully FDA 21 CFR Part 807 approved.

Available in eight popular sizes, these detectable plasters come in packs of 50 or 100 dependent on size. We also offer an assorted multiple pack of 100 containing multiple sizes.

**ES:** Cubo económico con tapa

**DE:** Spareimer mit Deckel

This bucket with lid is suitable for many uses in the food processing industry and is manufactured from detectable plastic approved to meet EU and FDA requirements for contact with food and consumable liquids.

### Features & Options

- Metal detectable
- X-Ray visible
- Manufactured from EU and FDA food contact approved detectable polymer
- Complete with lid
- Capacity: 10l (2.6 US gallon)
- Suitable for laser engraving

**Colours:**

**PRODUCT CODE:** 533-S029

## Metal Detectable & X-Ray Visible Bucket Without Handle

**FR:** Seau sans anse

**ES:** Cubo sin asa

**DE:** Eimer ohne griff

This bucket is suitable for many uses in the food processing industry and is manufactured from detectable plastic approved to meet EU and FDA requirements for contact with food and consumable liquids.

### Features & Options

- Metal detectable
- X-Ray visible
- Manufactured from EU and FDA food contact approved detectable polymer
- Without handle
- Capacity: 9l (2.4 US gallon)
- Suitable for laser engraving

**Colour:**

**PRODUCT CODE:** 505-P01-S028-A146

## Metal Detectable & X-Ray Visible Storage Box

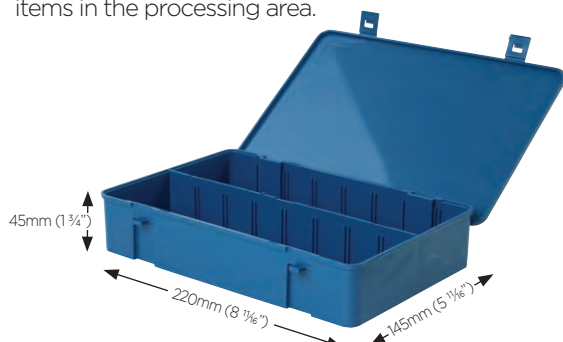

**FR:** Boîtes de stockage

**ES:** Cajas de almacenamiento

**DE:** Vorratsbehälter

This is a versatile detectable storage box with a clip fastening lid, making it suitable for storing a number of items in the processing area.

### Features & Options

- Metal detectable
- X-Ray visible
- Manufactured from EU and FDA food contact approved detectable polymer
- Lid with clip fastening
- Size: 220 x 145 x 45mm (8 1/8 x 5 11/16 x 1 3/4"),
- Suitable for pad printing/laser engraving

**Colour:**

**PRODUCT CODE:** 503-P01-A42

## Metal Detectable & X-Ray Visible Storage Containers

**FR:** Conteneur de stockage

**ES:** Contenedor de almacenamiento

**DE:** Lagerbehälter

These stackable storage containers are available in two shapes and are made from detectable food safe plastic.

### Features & Options

- Metal detectable
- X-Ray visible
- Manufactured from EU and FDA food contact approved detectable polymer
- Stackable
- Sizes: Square 117 x 117 x 74mm (4 5/8 x 4 5/8 x 2 15/16") Rectangular 190 x 128 x 78 (7 1/2 x 5 1/8 x 3 1/16")
- Suitable for pad printing/laser engraving

**Colour:**

**PRODUCT CODE:** 507-S145-P01, 508-S140-P01

# Metal Detectable & X-Ray Visible Stackable Storage Tray With Lid

**FR:** Bacs de stockage à couvercles

**ES:** Bandejas de almacenamiento con tapa

**DE:** Ablageschalen mit Deckel

Available in nine colours, this stackable detectable storage container with lid is suitable for multi-purpose use.

## Features & Options

- Metal detectable
- X-Ray visible
- Manufactured from EU and FDA food contact approved detectable polymer
- One-piece
- With holes
- Size: length 1200mm (47.25"), paddle head size 250 x 160mm (9.75 x 6.25")
- Suitable for pad printing

Colour:

**PRODUCT CODE:** 531-S249-A50

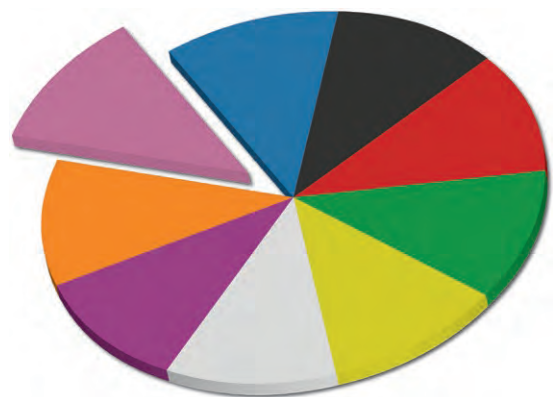

**Detectamet**

# Colour Coding mitigates the risk of cross contamination

At Detectamet we recognise the importance of avoiding cross contamination, which is why many of our products are available in nine different colours.

This allows you to safely identify different ingredient/product zones and helps workers comply with material handling and hygienic cleaning procedures, so you can maintain stringent food safety standards.

In Partnership  
with  
**BRCS**

If you can't find what you're looking for, please talk to a sales representative for assistance.

# Resin-set Brushes for Double Detectability

We offer a range of brushes with fully detectable bristles that are **resin-set**. This is the most effective method for filament retention, and essential for eliminating the risk of foreign body contamination.

## Features & Benefits

FULLY DETECTABLE HANDLES

FULLY DETECTABLE BRISTLES

MOST EFFECTIVE METHOD OF FILAMENT RETENTION

THE SAFEST BRUSHES TO USE IN THE FOOD PROCESSING INDUSTRY

**AUTOCCLAVABLE**  
up to 134°C (273°F)

**DESIGNED FOR LONG LASTING USE**

**EXCEPTIONALLY HYGIENIC**  
detectable resin prevents bacteria growth and accumulation of dirt and moisture

**BRISTLES SET WITH FOOD SAFE STAINLESS STEEL STAPLES AND FLOODED WITH AN ANTI-MICROBIAL DETECTABLE RESIN**

**ALL COMPONENTS MADE WITH EU/FDA FOOD SAFE APPROVED MATERIALS**

## Metal Detectable Polythene Bags and Liners

**FR:** Sacs et doublures en polyethylene

**ES:** Bolsa y revestimientos de polietileno

**DE:** Plastiktüte Taschen und Folien

A high proportion of foreign body contamination is due to bulk and product packaging failure, so we have developed detectable bags and liners manufactured from detectable polythene. This is a bespoke product so please talk to a sales representative for more details.

**SIZE: THIS IS A  
BESPOKE PRODUCT -  
ANY SIZE IS POSSIBLE**

### Features & Options

**Colours:**

### SUITABLE FOR MANY APPLICATIONS, E.G.

- FOOD BAGS
- BIN LINERS
- BOX LINERS
- HEAVY DUTY INGREDIENTS BAGS
- EXTRA LARGE TOTE BIN COVERS
- PALLET COVERS
- SHEETS AND FILM

**PRODUCT CODE:** 871-PO

Sequential numbering available for all products • Ask us for a pen and knife guide

## Metal Detectable Pallet Wrap

**FR:** Film d'emballage pour palettes

**ES:** Plástico para retractor palets

**DE:** Palettenfolie

A high proportion of foreign body contamination is due to bulk packaging failure, so we have developed pallet wrap manufactured from detectable polythene.

### Features & Options

# Detectamet Offer **Own Branding & Sequential Numbering**

**Perfect for knives (and other products)  
is sequential numbering, done in-house  
on our laser engraving machine.**

Sequential numbering gives you complete traceability and is particularly important if production presents higher risks, making it even more important to eliminate any type of contamination.

Our cost effective, laser engraving service adds sequential numbers onto your products.

**How about branding your  
detectable products using our  
cost effective pad printer?**

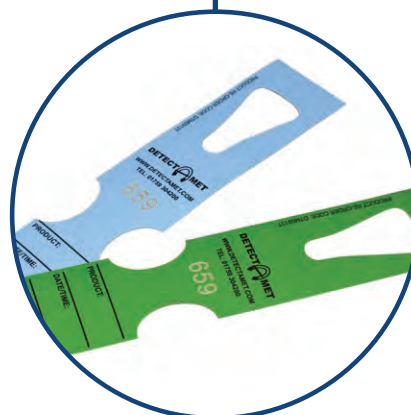

Pad printing offers superior quality one and two colour print on 3D irregular, curved and textured objects, making it perfect for our products.

**Where pad printing and laser  
engraving are not appropriate - due  
to the product - we can print your  
logos at point of manufacture, e.g.  
keyhole tags, test pieces. Ask a  
member of our team for advice.**

**Can't see what you're looking for?**

**Or are you looking for a detectable product  
for a specific project or application?**

**Don't worry!** We're always happy to talk about bespoke products and will always try our best to find a solution.

# SAFETY KNIVES

**We offer a wide range of detectable safety knives to suit all areas of your business.**

Safety knives are essential for opening packaging materials safely whilst preventing potential contaminant risks.

They are either spring-loaded with self-retracting blades or have fully enclosed blades.

**One knife can't do all jobs** – otherwise it will break, or an alternative, unsafe solution will be used by the operator.

**Ask these questions to determine the most suitable knife:**

- What are you cutting?
- What are you allowed?  
*e.g. open or concealed blade*
- What are you using now?

**MADE IN  
BRITAIN**

## SK106 Metal Detectable Disposable Safety Knives with Enclosed Blade

FR: Cutter pour emballage

ES: Cortador de envoltorios

DE: Schneidwerkzeug

5  
PACK

These lightweight disposable, detectable safety knives have an enclosed blade and a pointed nose to puncture packaging.

### Features & Options

- Metal detectable
- Enclosed stainless steel blade
- One-piece
- Suitable for ambidextrous use
- Suitable for laser engraving

Colours:

**PRODUCT CODE:** 615-K106-T030-PO

## SK123 Metal Detectable Disposable Ring Safety Knives

FR: Anneau pour couteau de sécurité

ES: Anillo con navaja de seguridad

DE: Sicherheitsmesserring

5  
PACK

These disposable, detectable ring safety knives can be worn at all times, allowing the wearer to keep both hands free and are suitable for cutting plastic film.

### Features & Options

- Metal detectable
- Enclosed stainless steel blade
- One-piece
- Suitable for ambidextrous use
- Suitable for laser engraving

Colour:

**PRODUCT CODE:** 615-K123-T184-P01

## SK112 Metal Detectable Heavy Duty Box Cutter

**FR:** Cutter à lame Vari-guard rétractable

**ES:** Cortador de cajas con vari-guard retráctil

**DE:** Teppichmesser mit einziehbarem Vari-Schutz

This heavy duty detectable box cutter has spring loaded retractable guards and reversible replacement blades. It is perfect for cutting boxes without damaging contents and most plastic packaging.

### Features & Options

- Metal detectable
- Enclosed stainless steel blade
- Security key for safe blade change
- Lanyard point
- Replacement blades available for cutting and hook blade
- Suitable for ambidextrous use
- Suitable for laser engraving

Colour:

**PRODUCT CODE:** 615-K112-TO34-P27

## SK111 Metal Detectable Heavy Duty Box Cutter with Hook Blade

**FR:** Cutter

**ES:** Cortador de cajas

**DE:** Teppichmesser

This heavy duty detectable box cutter has a hook blade, an enclosed blade with spring loaded retractable guards and reversible replacement blades. It is perfect for cutting boxes without damaging contents and most plastic packaging.

### Features & Options

- Metal detectable
- Enclosed stainless steel blade
- Hook blade to puncture into material
- Security key for safe blade change
- Replacement blades available
- Lanyard point
- Suitable for ambidextrous use
- Suitable for laser engraving

Colour:

**PRODUCT CODE:** 615-K111-TO33-P01

More product codes available – please contact us for a full price list

## SK115 Metal Detectable Safety Knives with Dual Enclosed Blades and Tape Cutter

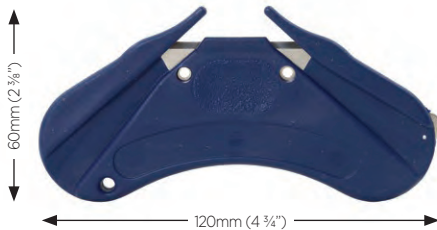

**FR:** Couteau double lame

**ES:** Navaja de hoja doble en forma de cangrejo

**DE:** Krebsmesser mit Doppelklinge

These compact detectable safety knives have a blunt tape cutter and twin blades for push/pull cutting techniques.

### Features & Options

- Metal detectable
- Enclosed stainless steel blades
- Blunt tape cutter
- One-piece
- Lanyard point
- Suitable for ambidextrous use
- Suitable for laser engraving

Colour:

**PRODUCT CODE:** 615-K115-T132-P01

## SK125 Metal Detectable & X-Ray Visible Stainless Steel Safety Knife with Auto Retracting Blade

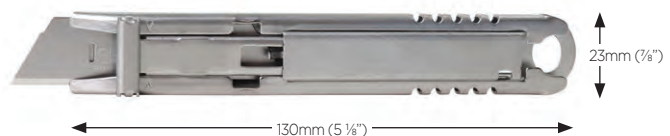

**FR:** Couteau de sécurité rétractable en acier inoxydable

**ES:** Navaja de seguridad retráctil de acero inoxidable

**DE:** Sicherheitsmesser mit einziehbarer Klinge aus Edelstahl

This fully detectable, retractable safety knife is manufactured from stainless steel.

### Features & Options

- Metal detectable
- X-Ray visible
- Automatic blade retraction
- NSF certifiable
- Replacement blades available
- Suitable for ambidextrous use
- Suitable for laser engraving

Slicers, Wavy Edge	147
Sequential Numbering and Branding	148

# PROFESSIONAL KNIVES

Our detectable professional knives are made from fully hardened and tempered stainless steel to ensure maximum edge retention.

The handles are manufactured from EU & FDA food contact approved detectable polymer.

To achieve maximum hygiene levels, handles are insert moulded to the blades, preventing build-up of contaminants allowing it to withstand rigorous sterilising and dishwasher use.

## Handles

Depending on knife function and frequency of use, handles come in two different shapes:

**Regular** – designed for holding the knife safely and comfortably for long periods

**Ergo** – designed for all day use by reducing stress to the hand and wrist and providing thumb support

## Edges and Blades

We offer three different types of blade, dependent on function:

**Plain** – ensures a fine, robust, long lasting edge, predominantly used in the meat processing industry

**Serrated/wavy** – the teeth along the blade edge allows a tough cut, whilst protecting the softer inner of a product. This is the perfect edge for cutting bread and pastry

**Scalloped** – with scallops running on each side of the blade, air can enter between the blade and cut products, allowing the cut slice to easily fall away making it perfect for slicing meat

## Colour Coding System

This is crucial to minimise the spread of contamination when dealing with certain allergens that could present a serious threat to health or life. To minimise this risk our knife handles are available in nine detectable colours.

## Metal Detectable & X-Ray Visible Vegetable Knives

FR: Couteau à légumes  
ES: Cuchillo para verduras  
DE: Gemüseputzmesser

These vegetable knives come in three different blade lengths, have various blade and tip ends and are available in nine different colours.

# Detectamet Offer **Own Branding & Sequential Numbering**

**Perfect for knives (and other products) is sequential numbering, done in-house on our laser engraving machine.**

Sequential numbering gives you complete traceability and is particularly important if production presents higher risks, making it even more important to eliminate any type of contamination.

Our cost effective, laser engraving service adds sequential numbers onto your products.

**How about branding your detectable products using our cost effective pad printer?**

Pad printing offers superior quality one and two colour print on 3D irregular, curved and textured objects, making it perfect for our products.

**Where pad printing and laser engraving are not appropriate - due to the product - we can print your logos at point of manufacture, e.g. keyhole tags, test pieces. Ask a member of our team for advice.**

**Can't see what you're looking for?**

**Or are you looking for a detectable product for a specific project or application?**

**Don't worry!** We're always happy to talk about bespoke products and will always try our best to find a solution.

Handle 200 x 20 x 20mm ( $7\frac{7}{8}$  x  $1\frac{3}{16}$  x  $1\frac{3}{16}$ "

Hosing outside diameter 10mm ( $\frac{3}{8}$ "

**PRODUCT CODE:** 915-E

## Bespoke Test Pieces

Can't see what you're looking for?  
Over the years we've helped  
customers with unique pieces.

So, don't worry... just talk to one  
of our sales representatives.

And don't forget most pieces  
are available in either Acrylic  
or heavy duty PTFE.

# Metal Detectable & X-Ray Visible **Detectasil® Silicone Caulk**

**FR:** Joint au silicone Detectasil®

**ES:** Sellante de silicona Detectasil®

**DE:** Detectasil® Silikondichtmittel

This innovative product, detectable by both metal detectors and X-Ray detection systems, makes it perfect for use in structural fitting and equipment installation within food processing areas, reducing your risk of undetected foreign body contamination of food.

Detectasil® is a neutral cure sealant, which offers better adhesive properties for a greater number of materials including PVC-U, most other plastics, glass, aluminium, lead, stone and masonry and Polycarbonate.

## Features & Options

**1  
PACK**

**DETECTABLE BY STANDARD  
METAL AND X-RAY DETECTION  
SYSTEMS**

**SERVICE TEMPERATURES  
OF - 30°C TO + 150°C  
(-22 TO 302°F)**

**NEUTRAL CURE -  
BETTER ADHESIVE  
PROPERTIES**

**NOT SAFE  
FOR FOOD  
CONTACT**

**UNPALATABLE  
TO RODENTS**

**FOR USE WITH  
A STANDARD  
APPLICATOR GUN**

**LONG SERVICE LIFE -  
UNOPENED WILL STORE  
FOR 12 MONTHS**

### **SUITABLE APPLICATIONS:**

windows & doors, wall panels, machinery,  
finishing, basins and other sanitaryware

**COLOURS:**  

**PRODUCT CODE:** 820-P01 (blue), 820-P06 (white)

## Metal Detectable UHMWPE

FR: UHMWPE

ES: UHMWPE

DE: UHMWPE

This UHMWPE, with an extremely high degree of polymerisation, contains a metal detectable additive and offers excellent toughness, impact strength, and wear/abrasion resistance. FDA approved, it has been specifically designed for use in the food processing and packaging industries to prevent foreign body contamination.

This is a bespoke product so please talk to a sales representative for more details.

### Features & Options

1  
PACK

FDA AND EU  
DIRECTIVE 2002/72  
EC COMPLIANT

EXCELLENT  
RELEASE  
PROPERTIES

CONTINUOUS USE  
TEMPERATURE UP TO  
80°C (176°F) AND IDEAL  
FOR USE IN CRYOGENIC  
ENVIRONMENTS

GOOD MACHINING  
QUALITIES ALLOW FOR  
PRODUCTION OF MORE  
COMPLICATED PARTS

USES: CHAIN GUIDER  
ELEMENTS, FUNNELS,  
ROLLS, BUSHINGS

COLOUR: 

PRODUCT CODE: 823-

## Metal Detectable & X-Ray Visible O-Ring

FR: Joints toriques

ES: Juntas tóricas

DE: O-Ringe

This detectable o-ring has been specifically developed to meet the stringent demands of the food and pharmaceutical industries and is manufactured as a bespoke product. Available in several sizes and colours, the majority of sizes are FDA compliant or are manufactured from food safe grades of EPDM, nitrile and fluorocarbon (FKM) compounds.

Fragments as small as 2mm can be identified by standard metal detection equipment.

MANUFACTURED FROM FDA COMPLIANT ELASTOMERIC MATERIALS

DESIGNED FOR MICROBIAL, HIGH-TEMPERATURE AND MECHANICAL APPLICATIONS

### Features & Options

1  
PACK

TEMPERATURE RANGE -50 TO 200°C (-58 TO 392°F)

## Metal Detectable & X-Ray Visible Acetal

FR: Acetal

ES: Acetal

DE: Acetal

This copolymer acetal, containing a metal detectable additive, has been specifically designed for use in the food processing and packaging industries, where it can easily be traced by conventional metal detection systems. *Results may vary depending on the sensitivity of the metal detection system used.*

It presents good mechanical strength, stiffness and impact strength and it features a food contact compliant composition.

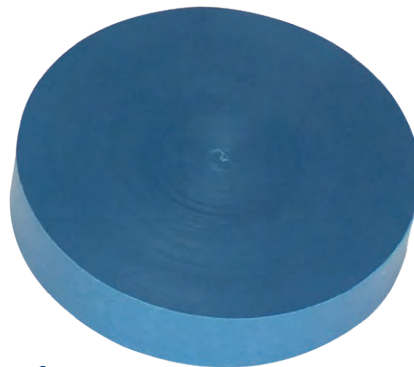

This is a bespoke product so please talk to a sales representative for more details.

### Features & Options

1  
PACK

FDA AND EU DIRECTIVE 2002/72 EC COMPLIANT

USES: FUNNELS, GEARS, GUIDERS, GRIPERS, SCRAPERS

Colour:

PRODUCT CODE: 830-

## Metal Detectable Silicone Rubber Sheeting, Strips and Extrusions

FR: Feuille en caoutchouc silicone

ES: Lámina de caucho de silicona

DE: Silikongummiunterlage

This metal detectable Silicone is available in rubber sheeting, strips and extrusions, all manufactured from FDA approved food safe materials. It is perfect for demanding applications, having excellent heat and flame resistance and good aging and weathering characteristics.

This is a bespoke product so please talk to a sales representative for more details.

### Features & Options

1  
PACK

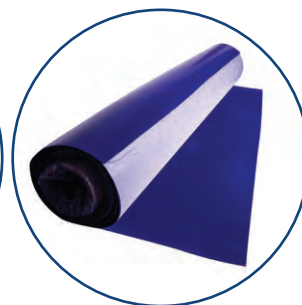

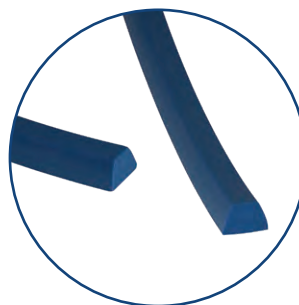

Colour:

**SHEETING,  
STRIPS &  
EXTRUSIONS**

**FDA COMPLIANT  
TO 21 CFR 177.2600**

**SHORE HARDNESS  
+/- 5° TO 60°**

### THICKNESS

1.5, 2, 3, 4, 6, 10mm  
( $\frac{1}{16}$ ,  $\frac{5}{64}$ ,  $\frac{1}{8}$ ,  $\frac{5}{32}$ ,  $\frac{1}{4}$ ,  $\frac{3}{8}$ " )

Other thicknesses  
available on request

**TEMPERATURE  
RANGE -60 TO 200°C  
(-76 TO 392°F)**

**PRODUCT CODE:** 817-

Sequential numbering available for all products • Ask us for a pen and knife guide

## Metal Detectable & X-Ray Visible PTFE

FR: PTFE

ES: PTFE

DE: PTFE

This is an FDA approved blue PTFE, both metal detectable and X-Ray visible, which ensures that fragments as small as 3 x 3 x 3mm ( $\frac{1}{8}$  x  $\frac{1}{8}$  x  $\frac{1}{8}$ " ) can easily be detected, avoiding foreign body contamination.

This is a bespoke product so please talk to a sales representative for more details.

### Features & Options

1  
PACK

Colour:

**CONTINUOUS USE TEMPERATURE  
UP TO 260°C (500°F)**

**HIGH DIMENSIONAL STABILITY**

**AVAILABLE IN MOULDED  
TUBES, RODS AND SHEETS**

**FDA COMPLIANT  
TO 21 CFR 177.2600**

### MOULDED TUBES

OD: 40 - 1815mm ( $1\frac{5}{16}$  -  $71\frac{7}{16}$ " )

ID: 15 - 1740mm ( $\frac{9}{16}$  -  $68\frac{1}{2}$ " )

Max Length: 300mm up to 350mm OD ( $11\frac{13}{16}$ " up to  $13\frac{3}{4}$ " OD)  
100mm up to 1815mm OD ( $3\frac{15}{16}$ " up to  $71\frac{7}{16}$ " OD)

### MOULDED RODS

OD: 30 - 700mm ( $1\frac{3}{16}$  -  $27\frac{7}{16}$ " )

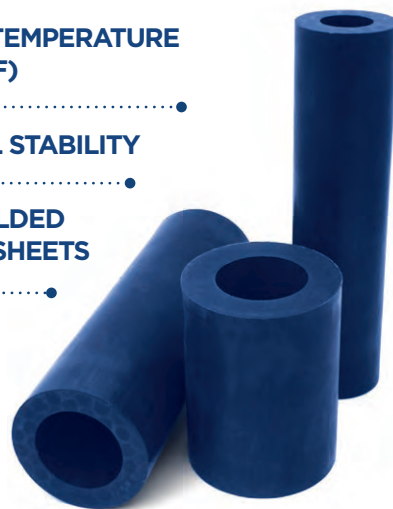

Max Length: 300mm up to 330mm OD ( $11\frac{13}{16}$ " up to  $13$ " OD)

100mm up to 700mm OD ( $3\frac{15}{16}$ " up to  $27\frac{7}{16}$ " OD)

### MOULDED SHEETS

600mm<sup>2</sup> - 1000 x 2000mm ( $23\frac{5}{16}$ in<sup>2</sup> -  $39\frac{3}{8}$  x  $78\frac{3}{4}$ " )

Thickness: 4 - 100mm ( $\frac{3}{16}$  -  $3\frac{15}{16}$ " )

**PRODUCT CODE:** 835-

## Metal Detectable & X-Ray Visible Polyurethane Belting

FR: Courroies en polyuréthane  
ES: Correas de poliuretano  
DE: Polyurethan-gurt

This blue polyurethane contains a metal detectable additive. It is FDA and EU approved, specifically designed for use in the food processing and packaging industries where it is traceable by conventional detection systems. *Please note result may vary depending on the sensitivity of the metal detection system being used.*

It is specifically targeted for extruded profiles, film and sheet applications and it exhibits the excellent abrasion resistance and properties found with standard thermoplastic polyurethanes (TPU) whilst also being metal detectable.

This is a bespoke product so please talk to a sales representative for more details.

## Metal Detectable & X-Ray Visible PA6 Filled Nylon

FR: Nylon renforcé en PA6  
ES: Nylon con poliamida 6  
DE: Nylon mit PA6-füllung

This blue polyamide 6 grade contains a metal detectable additive. It is FDA and EU approved, specifically designed for use in the food processing and packaging industries where it is traceable by conventional detection systems.

Detectable Filled Nylon presents good mechanical strength, stiffness, impact strength and wear resistance.

This is a bespoke product so please talk to a sales representative for more details.

**FDA AND EU  
COMPLIANT

## Metal Detectable & X-Ray Visible PEEK

FR: PEEK  
ES: PEEK  
DE: PEEK

This dark grey PEEK contains a metal detectable additive. It is FDA and EU approved, specifically designed for use in the food processing and packaging industries where it is traceable by conventional detection systems. *Result may vary depending on the sensitivity of the metal detection system being used.*

It is designed for multiple sterilisable machine parts and continual use up to 250°C (482°F) in applications where good wear resistance is necessary for high line speeds, mainly in equipment with CIP or SIP (cleaning or sterilisation in place) requirements.

This is a bespoke product so please talk to a sales representative for more details.

## Metal Detectable & X-Ray Visible Food Processing Mat

FR: Tapis pour l'industrie agroalimentaire  
ES: Tapete para procesar alimentos  
DE: Lebensmittelmatte

This detectable rubber mat was designed specifically for use in food processing areas. The raised knobs allow air flow around machine parts, helps prevent bacterial growth and provides an effective non-slip surface.

### Features & Options

PRODUCT CODE: 128-S

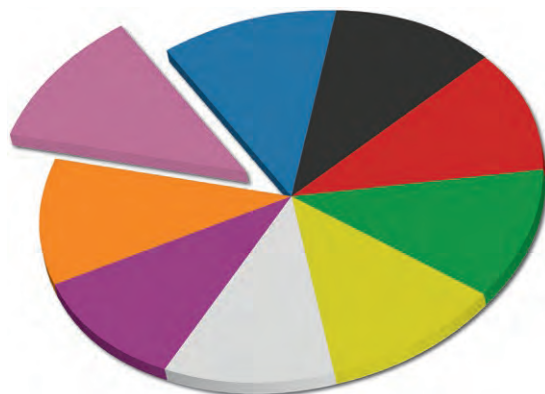

# Colour Coding mitigates the risk of cross contamination

At Detectamet we recognise the importance of avoiding cross contamination, which is why many of our products are available in nine different colours.

This allows you to safely identify different ingredient/product zones and helps workers comply with material handling and hygienic cleaning procedures, so you can maintain stringent food safety standards.

If you can't find what you're looking for, please talk to a sales representative for assistance.
