

Sushi Range

Sushi Range

In response to increasing demand for speciality packaging, we have created the ultimate Sushi range. The attractive black bases and crystal clear lids have been designed with authentic Sushi products in mind.

Having a open base with a separate condiment cavity is a special feature of the packs, which have been developed to hold a range of traditional sushi products, including California rolls, nigiri, maki, ginger and wasabi.

The new Sushi range is available in five sizes, ranging from snack and food to go, to a large table presentable party platter pack.
